About us, <https://www.festival-cannes.com/en/qui-sommes-nous/festival-de-cannes-1>, Festival de Cannes 2023, January 25, 2023

Cannes is the biggest film festival in the world. It is hosted in Cannes, France every year. Cannes is located in southeastern France, its closest major city is the city of Nice. The festival is going to be in its 76th year in the 2023 edition. At the 2022 edition of Cannes 21 films were screened. It is estimated that the festival draws about 80,000 festival goers and 4000 journalists. This is actually higher than Cannes whole population of 74,285. This source is helpful because Cannes is the biggest and most successful film festival in the world so there are a lot of things I can learn from this before hosting my own film festival.

Sundance Institute, <https://www.sundance.org/>, sundance.org - sundance.org, January 25, 2023, January 24, 2023

The Sundance Film Festival is a film festival that happens yearly in the United States. It is the largest Film Festival in the United States. It is hosted in Utah every year. The 2023 edition lasts 10 days from January 19 to January 29th. The Sundance Film Festival is part of a bigger thing called the Sundance Institute. Doing research on the Sundance Festival was helpful. It was helpful because unlike Cannes, Sundance is an indie film festival so it hosts smaller more independent films which is more similar to what my capstone will hopefully be. Something that is unhelpful about Sundance is that it happens all the way out in Utah. Hosting a film festival in Philly is definitely going to be way different than hosting a festival in the snowy mountains of Utah.

How to Plan a Film Festival Tutorial, <https://www.youtube.com/watch?v=24qgrzwGTFk>, YouTube, January 25, 2023, April 30, 2015

This source was helpful. It was helpful because it gave me a lot of advice on the many different steps of what goes into hosting a film festival. The video also brought up rewards. Usually people who win film festivals receive things like an Oscar. This video suggested giving winners things like giftcards. I don't think we are going to give our winners any awards but it is definitely worth discussing. If we wanted we could have a vote thing on a google poll after every film.

AAHSFF - THE FUTURE OF FILM, <https://www.hsfilmfest.com/>, All American High School Film Festival, January 25, 2023

This source is the All American Highschool Film Festival. The All American Highschool Film Festival showed me a lot about what goes into making a film festival. This source was specifically helpful because unlike Cannes and Sundance this festival is centered around films made by highschool students. This source got me thinking about how we are going to handle

submissions. Originally we were just going to have schools email us their films but this website has an actual place for people to submit films, so that is something to think about.

Philadelphia's Home for Film Lovers, <https://filadelphiar.org/>, Philadelphia Film Society, January 25, 2023, November 14, 2022

I selected this source for my annotated bibliography because it is one of the venues we are looking at for the possibility of hosting the film festival. Many factors go into choosing a location to host a film festival at. These factors include accessibility, seating, number of screens, costs and location. The PFS Bourse has a total of 776 seats which is definitely more than enough seats for festival.

Source 6

31st Philadelphia Film Festival, <https://filadelphiar.org/festival/>, Philadelphia Film Society, January 25, 2023, October 20, 2022

I chose to use this source in my bibliography for a few different reasons. Reason number 1 for using this source is that I actually attended this festival with the school. Because I was actually at this festival it gives me a good idea on how these things work. Reason number 2 for using this source is that it was hosted at the PFS Bourse. This is helpful because we are looking at this venue as a favorite place to host the festival. If the PFS Bourse already hosted one festival its a good look for us to have our festival there as well.

Source 7

31st Philadelphia Film Festival, <https://filadelphiar.org/festival/>, Philadelphia Film Society, January 25, 2023, October 20, 2022

I chose to use this source because I thought the idea in the title was interesting. A drive in film festival stand alone is a cool idea itself. Again a Quentin Tarantino film festival itself is a great idea. The combination of those two things is a very unique and great idea. Besides that the source didn't give a lot of good info but I still found the idea very interesting.
